GENERAL INVESTIGATIVE DIVISION

Senator George McGovern made available what appears to be 16 serials stolen from Media, Pennsylvania Resident Agency which had been received by mail at McGovern's office 3:30 p.m., 3/22/71, postmarked Princeton, New Jersey. Documents appear identical to those received 3/21/71 by Congressman Parren Mitchell (Democrat-Maryland). Documents pertain to racial security and New Left matters. All being examined by Laboratory. U

If approved, letter will be forwarded to Department to determine if any legal action can be taken to prohibit disclosure of contents of documents. It being noted, Mitchell has made several statements to press alluding to contents, and has admitted possessing Xerox copies of serials. U

NOTE: Bufiles reveal that Scott writes a Washington news letter which is syndicated and appears in small newspapers. On 9/17/68 he was admonished by the Bureau for lying and deliberately misquoting the Director in an article about the disorders at the Democratic National Convention in Chicago in 1968. He enclosed a copy of his release dated 3/29/71 which concerns the FBI's use of Confidential Informants and quotes excerpts from our 1970 Annual Report concerning Confidential Informants. His release also accuses the "Washington Post" of deliberately distorting information published from stolen FBI documents. ✓

THE SCOTT REPORT

For release: Monday, March 29, 1971

From The Washington News Intelligence Syndicate
7508 Elmhurst Street, S.E., Washington, D. C. 20028
Phone: 301 -- 736-6834

By Paul Scott

Washington, March 29: There really isn't anything mysterious or secret about the Federal Bureau of Investigation's use of confidential informants to keep a watch on militant revolutionary groups including those now operating on college campuses. u

This intelligence-gathering activity of the FBI is clearly spotlighted in the agency's annual report which was distributed widely throughout the U.S. earlier in the year. u

In a section titled "confidential informants" on page 6 of the report, the FBI states: u

"Extremely valuable to the FBI in its investigative and intelligence operations is criminal information gained through confidential informants who willingly cooperate with the assurance that their confidential relationship with the Bureau will be strictly maintained." u

The FBI document stresses the value of these informants, which according to charts in the report now total more than 7,000. That is an increase of approximately 1,800 over the number the FBI used in 1966. The FBI says: u

"On the basis of this information -- which is often virtually unavailable from other sources -- many important cases have been solved. In addition, these sources of information often alert the Bureau to planned crimes, thus making it possible for preventative steps to be taken." u

ALL INFORMATION CONTAINED
HEREIN IS UNCLASSIFIED
DATE 6-18-84 BY SP5 RJG/DMB

In addition to information relating to Bureau cases, the FBI points out, the informants also provide valuable information relating to criminal matters beyond the Bureau's jurisdiction. u

When this occurs, concerned law enforcement agencies throughout the U.S. are promptly advised. During the 1970 fiscal year, for instance, 544 individuals were arrested by other Federal agencies and 6,337 persons were arrested by state and local law enforcement agencies on the basis of such information. u

ENCLOSURE

ENCLOSURE

SCOTT REPORT - 2

Also attributed to FBI criminal informants were recoveries of money and merchandise valued at more than \$3 million by state and local law enforcement agencies. Federal agencies realized recoveries valued at more than \$4.5 million. u

DISTORTING THE NEWS -- In a well orchestrated effort to rally college students against the FBI, several large dailies including the Washington Post in stories about stolen FBI documents deliberately distorted the code identification of informants. u

In publishing details of stolen FBI documents mailed to them by a militant left-wing group, the Post carried reports that the designation "SI" stood for "Student Informer" and that initials "PSI" on some of the documents stood for "Paid Student Informer". The paper reported that the Justice Department denied this but refused to disclose what the initials mean. u

What the Post failed to report to its readers is that one of stolen secret documents revealed that the designation carried a different meaning than their story indicated. u

Even without access to the secret documents, a person that examines the FBI's annual report can easily deduct what SI and PSI mean. u

For instance, since most of the information gathered by the FBI informants deals with the internal security of this country, it is easy to see that SI must mean security informant.

PSI then must mean either "Possible or Potential Security informant" if one is acquainted with the way the FBI closely checks out its informants and their reliability before using them in important cases. Using this line of reasoning, one can also determine that CI must mean Criminal Informant. u

The \$64 question that a Congressional Committee ought to look into is why did the influential Washington Post, which is helping to ramrod the campaign to force the retirement of Hoover, give its readers the definite inference that "SI and PSI" mean student informers. u

A FATAL ERROR -- An East-coast policeman would still be alive today if another agency of government had made the rapid use of information that the FBI does from informants.

A student learning that a group of militants were planning to rob a bank passed the information along to the office of another government agency (not the FBI) in one East Coast city. The information was immediately sent to the Washington Headquarters of that agency. u

However, top officials of that agency for reasons still unclear did not distribute the warning to the FBI or to the local police on the scene. The bank was hit the next day and a policeman was gunned down during the robbery. u

Had the information been given to the FBI office in that city, the agent in charge, following the regular routine would have alerted local police and notified the FBI headquarters in Washington. Then, the militants could have been placed under close surveillance and the robbery nipped in the bud. u

As reported in an earlier column, the drive to oust Hoover is part of a well planned campaign to destroy FBI security files and restrict its investigative and information gathering activities of subversives. u

WHITE HOUSE INSIDE -- White House aides say President Nixon favors Miami Beach as the site for the 1972 Republican National Convention. Other cities reported to be in the running include San Francisco, Los Angeles, Chicago, Houston, and Philadelphia..... Senator Edmund Muskie (D.Me.) says it will cost in the neighborhood of 8 million dollars for him to run in next year's presidential primaries. u

GENERAL INVESTIGATIVE DIVISION

Attached pertains to the burglary of the Media, Pennsylvania, FBI Resident Agency (RA) on 3/8-9/71. The RA, located on the second floor of the County Building, was entered by jimmying locked door.

Initial investigation indicates Agents' desks and locked file cabinets pried open and all serials and notes in these cabinets missing. Total number and identity of serials being ascertained. No evidence any attempt was made to force open locked combination safe containing firearms, manuals, handbooks, and handcuffs, and security-type data. SAC affording on-scene supervision and Philadelphia conducting intensive and vigorous investigation to identify unknown subjects. Philadelphia being instructed to furnish summary of missing items. u

AEPNA FEDERAL SAVINGS AND LOAN ASSOCIATION,
Yeadon Branch, Church Lane and Chester Avenue,
Yeadon, Pa.

At approximately 1:03 p.m., two suspicious looking Negro males entered the Federally insured above titled savings and loan causing manager to activate suspicion camera. possibly obtaining photographs. u

Subject number one went to Teller Number 1 who was busy, then went to Teller Number 2 and asked for a \$24 Money Order. He later changed \$4 Money Order and when Teller was about to have him sign application, UNSUB number two, who had gone to the Manager's Office, forced the Manager into the Main Office at gunpoint and announced "This is a holdup", herding all personnel into the Teller area. u

Number two Teller started to go back to her desk and UNSUB one fired a shot into a desk in the Teller area apparently as a warning. He was armed with a pistol resembling a .38 caliber service revolver. Number two man, who was carrying a sawed-off shot gun or rifle, rifled two Tellers' cages putting the money in a brown paper bag which he handed to the Teller. Bait money was put in the bag with the loot. They then ordered the Personnel in the bank to lie on the floor and they made their escape on foot, walking North on Church Lane. u

3/9/71, begins on line 4 with the word "Media" and the telephone numbers above this word have no connection with the call. u

[] was reinterviewed on 3/10/71, and voluntarily advised he received through the mail on this date a copy of the statement which was read to him at 7 a.m. on 3/9/71. He furnished this statement and the envelope in which it was received to SA [] and SA FRANCIS J. GAFFNEY. The figures on the back of the envelope were made by [] when he used the envelope as a scratch pad. u

[] was asked if his fingerprints were on file with the FBI and he advised they were not. He agreed to furnish his fingerprints for elimination purposes on 3/11/71 with assurance that the prints would be returned to him. u

On 3/11/71, [] telephonically contacted SA GAFFNEY, advised he had second thoughts about furnishing his fingerprints and now did not wish to do so. Because of his strong views on personal civil liberties, furnishing his fingerprints gave him a very troubled conscience. He indicated he would continue to cooperate with the FBI in furnishing any additional items he might receive. u

[] indicated he hoped to be in center city in the afternoon and would recontact SA GAFFNEY to again discuss furnishing elimination prints. u

Later on 3/11/71, [] Philadelphia Attorney, telephonically contacted SA GAFFNEY, advised he had been contacted by [] in regard to the press release [] had furnished, our request for a set of his fingerprints, and asked if he could be advised of the reason we desired the prints. [] indicated [] feelings in

fingerprints

regard to furnishing his feelings bordered on paranoia. U

[] was advised the prints were for elimination purposes only and would be returned to [] without ever being placed in FBI files. [] indicated there had been some difficulty in securing return of fingerprints in some cases in the past when a criminal record was being expunged. He was given firm assurance that there would be no difficulty experienced in having [] fingerprints returned. U

[] advised as he now fully understood the matter he could logically discuss it with [] and would recontact SA GAFFNEY with [] decision. Philadelphia will follow this matter with [] U

For the information of the Bureau, Postal Inspector [] 30th Street Post Office, Philadelphia, advised on 3/12/71, that the "11A" figure in the postmark is the number of a cancelling machine at the main Post Office, 30th Street, Philadelphia. All mail is collected and taken to the main Post Office for cancellation and it is not possible to determine the specific location from which item was mailed. U

Bureau has instructed that sufficient personnel be assigned to all investigation in this matter to insure expeditious handling. U

REQUEST OF THE BUREAU

Will compare the typing specimens in the enclosures with typing specimens maintained by the Laboratory. U

Will check the paper and the envelope used for any identifying marks. U

Will check for any indented writing. U

Will determine if the statement issued by the Citizens Commission to Investigate the FBI is a copy of the original and if so, the type of copies used. U

PH 52-7165

Will conduct any other examinations deemed appropriate by the Laboratory. u

Will examine the statement issued by the Citizens Commission to Investigate the FBI for any latent fingerprints, compare any found with latents obtained in crime scene search in this case and any other appropriate files. u

PERIOD SIXTYTWO TO SIXTYSIX [REDACTED] PARTICIPATED NUMEROUS PEACE DEMONSTRATIONS IN THE PHILADELPHIA AREA. HE SERVED AS A STAFF MEMBER OF AMERICAN FRIENDS PEACE COMMITTEE, PHILADELPHIA, DURING THE PERIOD SIXTYFOUR TO SIXTYSIX. SINCE SIXTYTWO HE HAS BEEN EMPLOYED AS NEWSPAPER CORRESPONDENT ON VARIOUS NEWSPAPERS EASTERN PENNSYLVANIA AREA, INCLUDING THE "GAZETTE AND DAILY," YORK, PA. DURING APRIL, MAY, SIXTYSIX, HE VISITED SOUTH VIETNAM AS A JOURNALIST UNDER THE AUSPICES OF THE COMMITTEE FOR NON-VIOLENT ACTION. U

DURING AN INTERVIEW IN SIXTYFIVE HE FURNISHED BOTH FAVORABLE AND UNFAVORABLE INFORMATION ON AN INDIVIDUAL WHO HAD APPLIED FOR CONSCIENTIOUS OBJECTOR STATUS TO SELECTIVE SERVICE. DURING THIS INTERVIEW HE STATED HE PERSONALLY WAS A PACIFIST IN SIXTYTWO AND [REDACTED] LEHIGH VALLEY PEACE COUNCIL. AS REFLECTED IN PHILADELPHIA TELETYPE MARCH NINE LAST [REDACTED] CONTACTED PHILADELPHIA OFFICE AND ADVISED HE HAD TELEPHONICALLY RECEIVED A NEWS RELEASE THAT MORNING CONCERNING A BREAK-IN OF AN FBI OFFICE AND ALLOWED THIS OFFICE TO MAKE ZEROX COPIES OF HIS ORIGINAL TYPED NOTED OF THE PRESS RELEASE. IN LATE AFTERNOON [] CALLED EVEING BULLETIN TO DETERMINE IF THEY HAD ANY INFORMATION REGARDING BREAK-IN AND THEY HAD NOTHING. HE SUBSEQUENTLY CALLED FBI TO CHECK STORY AND WAS ADVISED THAT BURGLARY HAD OCCURRED. ON MARCH TEN LAST [] VOLUNTARILY ADVISED HE RECEIVED THROUGH MAIL THIS DATE A COPY OF STATEMENT THAT HAD BEEN READ TO HIM SEVEN A.M. ON MARCH NINE LAST. [] STATED ONLY HE HANDLED THE STATEMENT. THE STATEMENT APPEARS TO BE XEROX COPY OF ORIGINAL. IT WAS RECEIVED IN PLAIN ENVELOPE BEARING TYPED NAME AND ADDRESS OF [] STATED HIS FINGERPRINTS WERE NOT IN POSSESSION OF FBI AND HE AGREED TO COME TO FBI OFFICE MORNING MARCH ELEVEN LAST TO FURNISH ELIMINATION PRINTS WITH THE PROVISION THAT ELIMINATION PRINTS WOULD BE RETURNED TO HIM WITHOUT COPIES BEING MADE. AND IT BOTHERED HIM CONSIDERABLY TO FURNISH PRINTS. u

ON MORNING MARCH ELEVEN LAST [] TELEPHONICALLY CONTACTED THIS OFFICE, ADVISED HE HAD SECOND THOUGHTS ABOUT FURNISHING ELIMINATION PRINTS AND THIS REALLY TROUBLED HIS CONSCIENCE. HE INDICATED HE NOW DID NOT FEEL HE COULD FURNISH HIS PRINTS AND INDICATED HE WISHED HE HAD NEVER RECEIVED THE TELEPHONE CALL AND THE STATEMENT BECAUSE OF THE EMBARRASSING SITUATION THIS NOW PLACED HIM IN. INDICATED HE WOULD LIKE TO COOPERATE WITH THE FBI AND THAT ANY OTHER ITEMS HE MIGHT RECEIVE IN REGARDS TO THIS MATTER HE WOULD IMMEDIATELY FURNISH TO THIS OFFICE. ATTEMPTS WERE MADE TO HAVE [] MEET WITH AGENTS FOR A LIMITED PERIOD OF TIME TO DISCUSS THIS MATTER AND HE INDICATED HE HOPED TO GET TO CENTER CITY DURING AFTER-NOON MARCH ELEVEN LAST AT WHICH TIME HE WOULD RECONTACT AGENT. u

LATER IN AFTERNOON MARCH ELEVEN LAST BERNARD L. SEGAL, PHILADELPHIA ATTORNEY, TELEPHONICALLY CONTACTED AGENT WHO INTERVIEWED [] WAS EXTREMELY CONCERNED ABOUT FURNISHING HIS PRINTS. SEGAL INDICATED [] CONCERN WAS SUCH THAT HE WOULD CONSIDER IT A PARANOIA. SEGAL ADVISED HE WOULD RECONTACT HIS CLIENT, DISCUSS THE MATTER LOGICALLY WITH HIM, AND RE-CONTACT THIS OFFICE. u

FROM THE SEQUENCE OF EVENTS IT WOULD INDICATE THAT UNKNOWN SUBJECT WAS AWARE OF [REDACTED] BACKGROUND AND NEWSPAPER CONNECTIONS AND THROUGH HIM EXPECTED TO OBTAIN WIDESPREAD PUBLICITY REGARDING THE BREAK-IN AND BURGLARY OF THE MEDIA RA. This is to advise that in connection with the burglary of the Media Resident Agency, SAC, Philadelphia, advised that the only documents taken which would affect the operations of the Administrative Division were in connection with the Bureau Applicant Recruitment Program. u

These documents consisted of copies of applications and portions of applications which were either filed at the Media Resident Agency or directed to the Media Resident Agency in connection with investigations to be conducted. Additionally, there was one intra-office communication from Pittsburgh to Philadelphia requesting advice as to when an applicant was appointed and two Bureau communications to Philadelphia of the form-type variety instructing that an individual be furnished information concerning Bureau employment and if interested, be processed accordingly, and the other instructing that investigation be brought up to date. u

While it is certainly most undesirable for unauthorized persons to have possession of application forms containing background information on Bureau applicants, the documents taken would not be "sensitive" material in the sense that Bureau operations would be compromised. Originals of the applications are on file here at Bureau Headquarters and the processing of these applicants would not be affected. u

In regard to Item 1, visual examination failed to reveal any tool marks. Laboratory is requested to examine these pieces of doorjamb in an effort to determine if any instrument was utilized in prying this doorjamb loose. U

Item 3 is bottom lock to door 203 which was obviously tampered with due to visual foreign tool marks; therefore, the Laboratory is requested to conduct an appropriate examination in an effort to determine the type of instrument utilized in this regard. U

Item 4, the top door lock, main entrance door to RA, should be examined to determine if this lock had been "picked." U

Item 5, piece of wire from the portable radio - transmitter should be examined on the end containing piece of black tape in an effort to determine the type of instrument utilized in cutting this wire. U

Any additional examinations of the enclosed evidence that is deemed advisable by the Laboratory should be conducted. At the conclusion of this examination the results and the enclosed evidence should be returned to the Philadelphia Office.

3/9/71, begins on line 4 with the word "Media" and the telephone numbers above this word have no connection with the call. u

[] was reinterviewed on 3/10/71, and voluntarily advised he received through the mail on this date a copy of the statement which was read to him at 7 a.m. on 3/9/71. He furnished this statement and the envelope in which it was received to SA [] and SA FRANCIS J. GAFFNEY. The figures on the back of the envelope were made by [] when he used the envelope as a scratch pad. u

[] was asked if his fingerprints were on file with the FBI and he advised they were not. He agreed to furnish his fingerprints for elimination purposes on 3/11/71 with assurance that the prints would be returned to him. u

On 3/11/71, [] telephonically contacted SA GAFFNEY, advised he had second thoughts about furnishing his fingerprints and now did not wish to do so. Because of his strong views on personal civil liberties, furnishing his fingerprints gave him a very troubled conscience. He indicated he would continue to cooperate with the FBI in furnishing any additional items he might receive. u

[] indicated he hoped to be in center city in the afternoon and would recontact SA GAFFNEY to again discuss furnishing elimination prints. u

Later on 3/11/71, BERNARD L. SEGAL, Philadelphia Attorney, telephonically contacted SA GAFFNEY, advised he had been contacted by [] in regard to the press release [] had furnished, our request for a set of his fingerprints, and asked if he could be advised of the reason we desired the prints. SEGAL indicated [] feelings in

fingerprints
regard to furnishing his ~~feelings~~ bordered on paranoia. u

SEGAL was advised the prints were for elimination purposes only and would be returned to [] without ever being placed in FBI files. SEGAL indicated there had been some difficulty in securing return of fingerprints in some cases in the past when a criminal record was being expunged. He was given firm assurance that there would be no difficulty experienced in having [] fingerprints returned. u

SEGAL advised as he now fully understood the matter he could logically discuss it with [] and would recontact SA GAFFNEY with [] decision. Philadelphia will follow this matter with SEGAL. u

For the information of the Bureau, Postal Inspector [] 30th Street Post Office, Philadelphia, advised on 3/12/71, that the "11A" figure in the postmark is the number of a cancelling machine at the main Post Office, 30th Street, Philadelphia. All mail is collected and taken to the main Post Office for cancellation and it is not possible to determine the specific location from which item was mailed. u

Bureau has instructed that sufficient personnel be assigned to all investigation in this matter to insure expeditious handling. u

REQUEST OF THE BUREAU

Will compare the typing specimens in the enclosures with typing specimens maintained by the Laboratory. u

Will check the paper and the envelope used for any identifying marks. u

Will check for any indented writing. u

Will determine if the statement issued by the Citizens Commission to Investigate the FBI is a copy of the original and if so, the type of copier used. u

PH 52-7165

Will conduct any other examinations deemed appropriate by the Laboratory. ✓

Will examine the statement issued by the Citizens Commission to Investigate the FBI for any latent fingerprints, compare any found with latents obtained in crime scene search in this case and any other appropriate files. ✓

Result of examination: u

This report confirms and supplements the teletype forwarded you on March 14, 1971. u

Some toolmark-type impressions were found in one of the pieces of wood submitted. However, these impressions are not sufficiently characteristic of the particular type of tool that may have produced them. No microscopic markings are present in these impressions to identify the particular tool that may have been used. u

Impressions that could have been produced by a flat-bladed tool such as a screwdriver, pry bar or similar type of instrument were found on the hasp and lock casing in specimen Q2. However, the microscopic markings present in these impressions are insufficient for identification purposes. u

Marks on specimen Q3 are like those produced by a wrench, vise-grip pliers and similar type tools. There are some markings present in these impressions suitable for comparison with any suspect tools recovered. u

(continued on next page)

The pins in the lock cylinders in specimens Q2 and Q3 bear markings characteristic of those produced by locksmith-type "picking" tools. u

No markings were found on specimen Q4 that could be associated with or identified as "pick" marks. u

Specimen Q5 bears an impression that could have been produced by pliers or a similar type tool. Specimen Q5 appears to have been severed by a combination of pulling and pinching action. The markings present are insufficient to identify the particular instrument that may have been used. u

Entry to the desks in the office was affected by prying open the center drawers. Two of the desks bore impressions that could have been produced by a pry bar or pry bars having 1" to 1½" wide bit or bits. None of the markings present on the drawers are sufficiently characteristic for identification purposes. u

No toolmarks of value for comparison purposes were found on the cabinets. u

SUBJECT: EASTCON

ALL INFORMATION CONTAINED

HEREIN IS UNCLASSIFIED

PURPOSE:

DATE 10-18-84 BY SP5 RJG/PMB

To apprise you of significant information in this case.

DETAILS:

Our investigation showed that one [redacted] attended a meeting participated in by Eastcon adherents held in Lewisburg, Pennsylvania, last summer. [redacted] has been located and interviewed by Bureau Agents and refused to answer any questions concerning this matter. The interviewing Agents are of the opinion [redacted] had knowledge of the meeting concerned and we are going to discuss with the Department the issuance of a subpoena for him to appear before the Federal Grand Jury in Harrisburg, Pennsylvania.

The New York Office has advised that [redacted] an Eastcon adherent who has knowledge of draft board break-ins in various cities by Eastcon subjects, has been interviewed. He was approached with the idea in mind of developing him as a source. [redacted] appeared to be shaken during the interview and said he wanted time to think it over. New York is following this situation very closely and should he not be cooperative with the New York Office we will discuss with the Department the possibility of subpoenaing him to appear before the Grand Jury.

A meeting was held at Catholic University, Washington, D. C. 3/15/71 at which [redacted] acted as master of ceremonies. Speakers included [redacted] who has participated in draft board breakins; [redacted] and [redacted] an attorney affiliated with the Eastcon defense counsel. [redacted] commented on how she became radicalized through working in the ghettos and [redacted] spoke on the history of conspiracy laws. He commented on how easy it is to get an indictment and said "you" (meaning members of the audience) might be next.

Memorandum to Mr. C.D. Brennan
Re: Eastcon
100-460495

b6
b7c

[] spoke on hunsweving and total opposition to the draft and to the Government and [] briefly described his transition from a seminarian to a radical through his work in the ghettos of New Orleans and Baltimore. u

[] During a discussion following the above comments, [] commented regarding people becoming involved in "actions" rather than passively supporting such activity. He made reference to "stopping the Government before it stops us." He referred to the "Media action" wherein he said "various items were removed from FBI files at Media, Pennsylvania," thereby disrupting the office. He said "we had been interested for some time as to what they said in their files there." [] remarks imply either his involvement in the Media raid or knowledge of it in spite of subsequent attempts on his part to retract what he said. [] remarks have been discussed with the General Investigative Division and it was agreed that he should be vigorously interviewed regarding this matter. Instructions for this interview will be furnished the Baltimore Office. u

Representative William R. Anderson (D-Tenn.) is quoted in the 3/17/71 edition of "The Washington Post" as saying that Justice Department sources told him that the Director "considerably accelerated" Department efforts to prosecute Eastcon subjects. He also said during an interview on 3/16/71 that a variety of sources both in and out of the Justice Department have led him to conclude that "quite a fishing expedition" is being carried out to build a case against the defendants in this case. He also commented that "Congress is very derelict in not executing greater authority over the FBI, the CIA and our military intelligence agencies." Congressman Anderson appears to have been completely taken in by the defendants of this case and those who would thwart the Bureau in carrying out its responsibilities. His remarks are, to say the least, irresponsible. u

ACTION:

This is for your information. We will continue to keep you advised of pertinent developments in this case. u

Banking Activities

On December 31, 1970, [redacted]

[redacted] NYC, advised that [redacted] NYC, maintains regular checking account [redacted]. He started it in April, 1966. He is supposedly employed as a self-employed antique dealer. Three weeks ago, he asked the bank for a loan which was turned down. The loan discussed was in the low four figures. In 1965, [redacted] was employed by [redacted] NYC. He formerly had a checking account in 1965 which listed many overdrafts. [redacted] advised that she knows [redacted] on a casual basis. He appears to be a polite, mild individual. However, one time he started quite a ruckus at the bank over an alleged overdraft on his account. She feels he does deal in antiques since on one occasion he came into the bank carrying a rather large vase and spent some time with [redacted] explaining its story. u

GENERAL INVESTIGATIVE DIVISION

This pertains to the break-in and burglary of the FBI Resident Agency, Media, Pennsylvania, (of the Philadelphia Division) on 3/8-9/71. All Agents' desks and locked file cabinets were pried open and all serials, notes, police instructors' bulletins and other material contained therein were stolen. No attempt was made to open the locked combination safe containing weapons; handbooks and other security type material. u

Attached teletype sets forth a list of stolen serials which includes criminal, security, racial, applicant and internal security - Russian-type investigations. Bureau instructed each receiving office to immediately furnish the Bureau one copy and the Philadelphia Office two copies of each missing item listed therein under the respective divisions. The Bureau will furnish Philadelphia necessary copies in applicant and other investigations where Bureau is office of origin. u

In view of the volume of mail - including teletypes, airtels, and anticipated reports - which is being received in this investigation and inasmuch as there is considerable teletype traffic between not only the Bureau, Philadelphia (Office of Origin) and auxiliary offices, it is requested that a code name be utilized to identify this investigation.

The code name, "Medburg" has been searched through Bureau indices and no reference found, so there will be no conflict in its utilization.

THEFT OF GOVERNMENT PROPERTY

ALL INFORMATION CONTAINED

HEREIN IS UNCLASSIFIED

DATE 6-18-84 BY SP5 RJG/PMB

During the night of March 8, 1971, unknown individuals burglarized the FBI Resident Agency at Media, Pennsylvania. Official documents, reports, and other material, the property of the FBI, were stolen. Subsequent to the theft, certain representatives of the news media received a letter from a group calling itself "Citizens Committee to Investigate the FBI" which claimed credit for the burglary. u

During the course of our investigation, information was developed indicating the possibility certain individuals associated with defendants or unindicted co-conspirators in the East Coast Conspiracy to Save Lives investigation may be involved. One [redacted] allegedly received a copy of the letter from the above-mentioned committee and had so advised the news media. u

At approximately 5:45 p.m., March 16, 1971, Special Agent Fred B. Griffith of this Bureau telephonically contacted [redacted] of the Department with respect to the possibility of interviewing [redacted]. At this time [redacted] indicated [redacted] as an [redacted]

[redacted] will be included in a superseding indictment, thereby making him a defendant. Accordingly, he did not want [redacted] interviewed by the FBI at this time. u

In view of the above, no active investigation will be conducted in captioned matter relative to defendants or [redacted] case nor will such individuals be interviewed by the FBI without clearing same with the Department. u

SUBJECT: UNKNOWN SUBJECT;
BREAKING INTO MEDIA,
PENNSYLVANIA, RESIDENT AGENCY
DESTRUCTION OF GOVERNMENT PROPERTY

SAC Jamieson, Philadelphia, telephonically advised that some time during the night the Resident Agency at Media, Pennsylvania, had been broken into. Initial reports to Jamieson were that the file cabinets and desks were broken into but it does not appear that the unknown subject or unknown subjects got into the safe. U

The Media, Pennsylvania, Resident Agency is located in the County Building, Room 203, Front Street and South Street, Media, Pennsylvania. The building is privately owned. U

ACTION: Agents of the Philadelphia Office have instituted an immediate investigation. SAC Jamieson will keep the Bureau advised. U

Enclosed herewith is a Xerox copy of serials
charged to the Agents at the Media Resident Agency at the
time of the break-in. In those instances where review of
files determined that only one copy of the serial existed
and it was a communication from another division or from
the Bureau, copies have been requested by teletype. U

A complete compilation itemizing each and every
serial is being prepared and forwarded to the Bureau by
separate communication. The enclosed serials have been
forwarded without this compilation in the interest of
speed so as not to delay the Bureau in the evaluation of
the material taken in the above break-in. U

UNKNOWN SUBJECT(1);
Germantown Savings Bank,
120 South 69th Street
Upper Darby, Pa. - 2/11/71

On February 11, 1971, at approximately 6:05 p.m., a lone white male, wearing a maroon, knitted stocking cap, mod gold-rimmed sunglasses, and a gray overcoat, entered the FDIC-insured Germantown Savings Bank. He went to a window which was closed, and the teller who was eventually robbed passed by and asked if she could help him. He stated, "No, you're closed." The teller told him to step down to her window and that she would help him. The subject went to the teller's window and pushed in to her a demand note reading as follows: "Put the money in the bag. It's a holdup." After she read the note, the subject took the note back and

[redacted] he also handed her a brown paper bag in which she put \$1,381.00, including [redacted] bait bills. The subject put the money in the brown paper bag and left the bank on foot running through a parking lot adjacent to the bank. No getaway car was observed. u

OFFICIAL SECRETS ACT

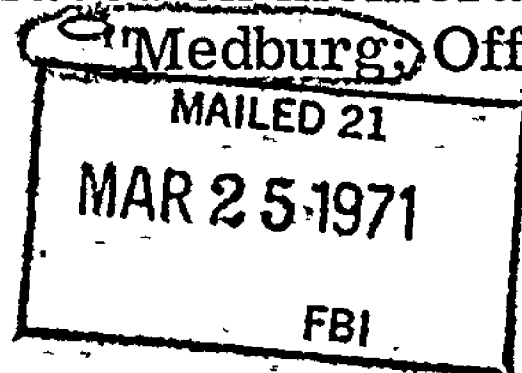

In view of what seems the obvious fact that we can anticipate additional attempts by certain elements to obtain official Government files by burglary, theft, or otherwise, and particularly the files of investigative agencies, we suggest that the Department of Justice consider drafting and sponsoring a statute similar to The Official Secrets Act of Great Britain. This act is in three parts, the Act of 1911, the Act of 1920, and the Act of 1939, but all are considered one act. The three parts appear in Volume 8, Third Edition, of "Halsbury's Statutes of England," pages 250, 294, and 337. The language in which we are particularly interested, owing to what has happened since the burglary of our resident agency in Media, Pennsylvania, is that which appears on page 295 of the referenced source, and particularly parts (2)(a) and (b). *u*

I would appreciate an expression of your views on the wisdom and feasibility of such legislation. *u*

During the night of March 8, 1971, unknown individuals burglarized the FBI Resident Agency at Media, Pennsylvania. Official documents, reports, and other material, the property of the FBI, were stolen. Subsequent to the theft, certain representatives of the news media received a letter from a group calling itself "Citizens Commission to Investigate the FBI" which claimed credit for the burglary. Among the items which were stolen were instructions to FBI field divisions dealing with the agreement between the U. S. Secret Service and the FBI concerning Presidential protection.

Those categories of information requiring FBI notification of the U. S. Secret Service were set forth in this document.

This is being brought to your attention in the event those responsible for the theft should make public disclosure of the contents of the stolen documents.

Dear Mr. Vice President:

Attached for your information is a summary of the situation involving a burglary of the FBI Resident Agency at Media, Pennsylvania, during the night of March 8, 1971. *u*

Those responsible for this burglary stole material pertaining to criminal, applicant and security-type investigations, as well as certain instructional and training documents. Portions of this material have been furnished anonymously to Senator George S. McGovern of South Dakota, Representative Parren J. Mitchell of Maryland, and The Washington Post. *u*

The Attorney General has been advised by separate communication. *u*

Lawmaker Hits Federal Wiretapping

Mitchell Urges
Police Protect
Civil Liberties.

By RON PAGLIA
Post-Gazette Staff Writer

A U.S. congressman last night criticized federal wiretapping policies and called on police officers to protect civil liberties and civil rights.

"There is one area which is more crucial than all others for law enforcement agents," said Rep. Parran Mitchell, D-Md., at the third annual community service award dinner of the Guardians of Greater Pittsburgh at Chatham Center. "That is the safeguarding of civil liberties and civil rights."

'Over-Reaction'

"We are now in a climate of over-reaction in this country. The attorney general's office boasts about the increase of wiretaps, and the military admits to its unwarranted invasion of privacy through surveillance and wiretapping. I am against these policies."

Mitchell, 47, revealed that yesterday he received reproductions of documents stolen from an FBI office in Media. The stolen documents dealt with federal investigations of individuals and groups.

"I turned the information, which included a letter from the Citizens Committee to Investigate the FBI admitting it stole the document, over to the Justice Department," Mitchell said.

"The burglary was a crime and must be dealt with as such. Investigation and surveillance of individuals, black student groups, and peace groups as indicated in the files is equally criminal."

Award Highlight

Highlighting an awards program was presentation of the Police Community Relations Award to Inspector William Moore.

Other award recipient were Edward Wallis, Ray Coleman, Alma Fox, Edgar J. Kaufmann, J. Craig Kuhn, Robert R. Lavelle, the Rev. John O'Malley, Bernard Jones, Theodore Vassar, Earl Harris, and Jimmy Joe Robinson.

The Guardians, an organization of black police officers, is headed by Sgt. Harvey Adams.

The Attorney General

March 25, 1971

Director, FBI

**BURGLARY OF THE FBI RESIDENT AGENCY,
MEDIA, PENNSYLVANIA, MARCH 8, 1971**

Medburg

During the night of March 8, 1971, unknown individuals burglarized the FBI Resident Agency at Media, Pennsylvania. Official documents, reports and other material, the property of the FBI, were stolen. Subsequent to the theft, Representative Parren J. Mitchell of Maryland and Senator George McGovern of South Dakota, and certain representatives of the news media, received letters and copies of some of the stolen documents from a group calling itself "Citizens Commission to Investigate the FBI," which claimed credit for the burglary. u

On March 23, 1971, Assistant Attorney General Mardian requested data relative to selective stolen documents which if published would be damaging. u

DAMAGE ASSESSMENT IN THE SECURITY FIELD

For damage assessment purposes, we have isolated these documents in three specific categories as follows: u

1. Racial Extremist Matters

Our investigations in this area are directed toward identifying those individuals and groups which, because of their extremist practices, pose a definite threat to the internal security of this country. Consistent with these investigative responsibilities, we have developed carefully screened informants and sources who are in a position to furnish us, on a confidential basis, current and significant information relating to the goals and actions of these extremists. Of prominent investigative interest in this field is the violence-prone, revolutionary Black Panther Party (BPP) which has, as its avowed goal, the violent overthrow of the Government of the United States. In furtherance of this end the BPP has, as one of its primary targets, youth groups not only in the ghetto but on college campuses, such as Black Student Unions and similar groups. u

The Attorney General

The paramount danger in publicizing stolen documents in this field would be that unevaluated raw material taken out of context could create the patently false impression that the FBI is conducting indiscriminate investigations of black groups and individuals. u

2. Communist and New Left Extremist Matters

In connection with our investigative and intelligence-gathering responsibilities in the area of political terrorism, some of the stolen documents deal with communists and New Left extremists. Investigation of these matters, as in all other areas of FBI investigative interest, is governed by strict guidelines. We are concerned only with those individuals and groups concerning which we have solid subversive allegations. Among violence-prone groups falling under the scope of our responsibility are Students for a Democratic Society and other campus-based extremist groups. Again, information in the stolen documents, publicized out of context, could give rise to an incorrect impression as to the nature and extent of our investigations in this area. A specific example of this is the contents of one stolen document which, when isolated, implies an investigation of a college professor and identifies by name two confidential campus sources. The truth is that our inquiries regarding the professor were solely related to an investigation to apprehend two fugitives wanted for murder in connection with a bank robbery. u

3. Espionage and Foreign Intelligence Matters

Several of the stolen documents pertain to specific counter-intelligence programs of a very sensitive nature directed toward identifying, penetrating and neutralizing hostile intelligence forces operating in this country. Information relating to these programs is of a classified nature and, if surfaced, would have a serious and adverse impact on the national security. The FBI seeks to identify persons in contact with communist-bloc establishments in this country who may represent a threat to our national security. At the same time, we endeavor to develop cooperative Americans who could be utilized to thwart communist-bloc intelligence officers. It is a well-established fact that hostile intelligence services utilize official establishments as a basis for espionage activities. u

The Attorney General

DAMAGE ASSESSMENT IN THE CRIMINAL FIELD

Investigations in the criminal field are for the most part based on law. During the course of criminal investigations or investigations related to organized crime or the location of Federal fugitives, it is standard investigative procedure necessary to the successful solution of the case to obtain information from confidential sources or informants who do not want their identity divulged. In several instances stolen documents reveal the identity of these sources. In addition, exposure of certain documents would reveal confidential investigative techniques such as the obtaining of information from telephone companies, banks, post offices, employees and officials at educational institutions; et cetera. U

In the organized crime field, certain documents identified individuals connected with gambling activities. The FBI has the responsibility to conduct such investigations in an effort to curb organized crime. U

In addition to the above areas of specific investigative interest, the stolen documents on the whole divulge our confidential relationship with various credit bureaus, police departments, private individuals and agencies on a local, state and Federal level who cooperate with us, as well as confidential and sensitive investigative techniques. Disclosure of the contents of these stolen documents would undermine our over-all investigative program and intelligence-collecting capability and consequently cause grave damage to the national security. A summary of the most potentially damaging documents is enclosed. U

These are but a few examples of the confidential sources which were identified by name and position, others named by informant numbers and various investigative techniques that are used by the Bureau in obtaining information in fugitive type investigations. It is apparent that disclosure of these sources by name and position could jeopardize and eliminate such contacts in the future and where potential informants are named, not only their information but their lives could be placed in jeopardy. U

It is obvious in order to fulfill our responsibilities to locate Bureau fugitives it is necessary to contact all sources who can offer assistance and can furnish pertinent and reliable information concerning the possible location of such fugitives. U

FUGITIVE INVESTIGATIONS

b6
b7C
b7D

In connection with fugitive investigations there are 18 communications in the form of airtels, teletypes and reports, all of which are directed towards locating the fugitives involved. These communications have been reviewed and there is set forth herewith information relating thereto. In Bureau file 76-41346 [redacted] Fugitive, Probation Violator), there is a Las Vegas letter to Philadelphia dated 2/2/71, which reveals information furnished by the Superintendent of the U. S. Post Office, Las Vegas, Nevada, to the effect that there was no record of a forwarding address for a relative of the fugitive. U

In Bureau files 88-53092 [redacted] Fugitive, Unlawful Flight To Avoid Prosecution - Attempted Murder) and 88-53093 [redacted] Fugitive, Unlawful Flight to Avoid Prosecution - Possession and Intent to Sell Narcotics), there is contained an Alexandria airtel to the Bureau dated 2/16/71, copies of which are designated for our Legal Attache in Mexico City. It does not, however, identify the Legal Attache, specifically as a Bureau employee. There is also contained in these files an Alexandria teletype to a number of field offices dated 2/17/71, which discloses that the fugitives' post office box in Falls Church, Virginia, contains a letter to an individual in Rochester, New York. Also contained in the above two files is an intraoffice memorandum dated 2/17/71, which reports a contact with our source in [redacted]

In Bureau file 88-51701 [redacted] Fugitive, Unlawful Flight to Avoid Prosecution - Murder), there is contained a report by SA [redacted] at Philadelphia dated 2/19/71. The administrative pages to this report identify four individuals who are potential criminal informants of the Philadelphia office:

The administrative pages of this report also identify [redacted] as furnishing information [redacted]

concerning a person residing at the Center. In addition, the administrative pages contain the results of telephone toll call checks on individuals related to or associated with the fugitive. The administrative pages also contain the symbol numbers for three criminal informants of the Philadelphia office. They are not identified by name, however. U

The disclosure of the identity of the potential criminal informants, investigative techniques, and sources mentioned above could adversely affect our efforts to obtain information pertaining to the apprehension of wanted persons. U

The use of informants, investigative techniques, and sources as listed above is vital in connection with investigations to locate fugitives. The use of these techniques often results in the apprehension of individuals who are wanted for the most vicious crimes. U

SAC LETTER 71-7(E) 2/16/71
"PHOTOGRAPHING OF VISITORS TO PUBLIC AGENCIES"

"SAC Letter" is the term applied in FBI to periodic communications from Director Hoover to all Special Agents in Charge (SACs) of FBI field offices to timely advise appropriate personnel of new and changing instructions relating to all facets of FBI operations. u

One of the stolen documents was the SAC Letter described in caption above which advised that adverse publicity had followed a recent incident in which persons visiting a Federal agency for the purpose of lodging a complaint were photographed by the local police department. It was instructed that in order to preclude the FBI becoming involved in a similar incident, no attempts are to be made to photograph such visitors without specific authority of FBI Headquarters. u

Of particular significance is mention made in the SAC Letter that before FBI Headquarters would grant permission to photograph, the authority of the Attorney General would be necessary. The specific incident which prompted this SAC Letter was the appearance in a Washington, D. C., newspaper of an article which was critical of the Metropolitan Police Department for photographing a group of women who had entered the Justice Department Building to lodge a complaint with a Justice Department official. None of these specifics are contained in the SAC Letter which merely referred to "a Federal agency" and "the local police department" without reference to locale. u

[REDACTED]

Documents stolen relate to the investigation of [REDACTED] a student at the University of Maryland, Eastern Shore Campus, Princess Anne, Maryland. U

These documents show that the FBI was investigating [REDACTED] because of an allegation that he was a constant source of agitation at school and one of the leaders in a student demonstration on campus in 1970 which led to 181 arrests. Documents further show that the Acting Chancellor, University of Maryland, Eastern Shore Campus, advised that [REDACTED] was confronted with the rumor that he was a member of the Black Panther Party (BPP) but [REDACTED] denied being a member. He did, however, admit he had worked with the BPP in New York City during 1969 summer vacation. U

The investigation in this matter was conducted in light of the allegations made above which came to the FBI's attention first by anonymous letter directed to FBI headquarters in November, 1970. This letter allegedly was from a concerned mother in the State of Maryland and was handwritten and the writer indicated the letter had been forwarded to the Governor of Maryland, the United States Marine Corps and the FBI. This, coupled with the information from the Acting Chancellor concerning [REDACTED] admission that he worked with the BPP, is the basis for the FBI investigation. The BPP is a violence-prone black extremist group being investigated by the FBI. U

The damage which will result if the documents concerning the investigation of [REDACTED] are exposed is considerable in that the Acting Chancellor of the University of Maryland has been compromised. It clearly shows that this individual completely cooperated with the FBI, not only making the subject's school record available, but also furnishing his personal opinion regarding [REDACTED]. The Acting Chancellor, Dr. Howard E. Wright, stated that he considered [REDACTED] to be an emotionally unstable person and also indicated he was released from summer employment with the Department of Health, Education and Welfare, Baltimore, for allegedly teaching BPP ideology. Dr. Wright could be the subject of not only harassment but even possibly physical violence since the BPP and other black extremists have been known to engage in acts of violence in the past. In addition, Dr. Wright could be the subject of a law suit by [] for expressing his personal opinions which were derogatory. It is to be noted that [] is the son of a physician in Bryn Mawr, Pennsylvania. U

The stolen documents referred to above are: U

**BLACK STUDENT GROUPS ON
COLLEGE CAMPUSES**

Some of the stolen documents pertain to instructions to all field offices to conduct discreet preliminary inquiries regarding all Black Student Unions (BSU) and similar groups organized to project the demands of black students. These inquiries were limited to established sources only. No one else was to be interviewed. U

The communication to all field offices, dated November 4, 1970, which was among the stolen documents, instructed that similar discreet preliminary inquiries were to be conducted on the leaders and leading activists in the groups. The results of these preliminary inquiries were to be submitted to headquarters with recommendations on whether further investigation was necessary. The decision on further investigation was to be made at headquarters. Discretion and careful handling were stressed in the instructions. Each office was to submit the names of the organizations which were to be subjects of their preliminary inquiries. One of the stolen documents was a list of 13 black student organizations on which the Philadelphia Office was to conduct preliminary inquiries. U

These instructions were issued because such black student groups were targets for extremist influence and control. The extremist Black Panther Party (BPP) attempted to organize BSUs nationally in both high schools and colleges. The Black Student Revolutionary Conference at Yale University in May, 1970, where whites were excluded, was directed by the BPP. Speakers recommended that students learn all they could about guns and bombs at their college libraries. Following this conference, attendees reportedly conducted BPP-directed activities under the banner of the BSUs. At a BSU National Conference at Stanford University in May, 1970, the need was stressed for unity among black organizations to succeed in a world revolution. Discreetly gathered intelligence information was needed to determine the success and extent of these extremist efforts to influence and control these groups. Dissemination of the results of their preliminary inquiries is only being made where subversive information was developed.

Exposure of this document would very seriously affect our ability to develop intelligence information on extremist groups on college campuses. Such sources may very well consider it too risky to jeopardize their positions by cooperating with the FBI. U

The stolen documents mentioned above are: U

1. Airtel from Director, FBI, to Special Agent in Charge (SAC), Albany, two copies to all offices, dated November 4, 1970, captioned "Black Student Groups on College Campuses, Racial Matters, Dated 12/4/70."

2. Airtel from SAC, Philadelphia to Director, FBI, dated December 2, 1970, captioned "Black Student Groups on College Campuses, Racial Matters, Dated 12/4/70."

3. Letter from SAC, Philadelphia, to Director, FBI, dated February 26, 1971, captioned "Black Student Union (BSU) Pennsylvania Military College, Chester, Pennsylvania, Racial Matters."

4. Letterhead memorandum dated February 26, 1971, at Philadelphia, Pennsylvania, captioned "Black Student Union; Pennsylvania Military College, Chester, Pa."

U

None of the documents disclose subject to be [REDACTED] [REDACTED] although there is recorded in one document the names of [REDACTED] as parents of the subject. It should be noted that at outset of FBI inquiry, [REDACTED] was personally apprised of the complaint and that a most discreet inquiry was being undertaken. He stated he fully understood and appreciated necessity for the inquiry. Public disclosure of these documents may tend to taint the character of individuals involved. U

DEPARTMENTAL APPLICANT INVESTIGATIONS

Four communications were taken pertaining to four different cases, consisting of investigation of two applicants for position of Assistant United States Attorney and two applicants for clerical positions in Immigration and Naturalization Service (INS). Communications set out leads to cover applicant's activities during periods of unemployment, current residences and reputations of close relatives, appropriate agency checks including bar associations and grievance committees, and credit and arrest records. u

Since investigations for these positions must be thorough, coverage of such leads is essential. The Department must have all pertinent information bearing on the suitability of applicants particularly with respect to the important positions in the United States Attorney's offices. u

In connection with application of one clerk-typist at INS, Philadelphia communication 2/25/71 referred to a previous Security of Government Employees investigation completed 2/23/71 which had covered neighborhood, employment, credit, and arrest aspects; Philadelphia stated it would cover remaining "DAPLI" (Departmental Applicant) investigation consisting of applicant's education and arrest checks on relatives. u

**MEMORANDUM OF UNDERSTANDING
BETWEEN FBI AND U. S. SECRET SERVICE
CONCERNING PRESIDENTIAL PROTECTION**

Item C in a letter to all Special Agents in Charge No. 71-9 dated March 2, 1971, captioned "Dissemination of Information to U. S. Secret Service - Assaulting Federal Officer, Extortion and Threats," relates, in part, to agreement between the U. S. Secret Service and the FBI concerning Presidential protection. The document indicates the Secret Service is maintaining a list of individuals who have made threats of bodily harm or attempted to cause bodily harm to officials or employees of Federal, State, or local governments, provided such threats are made against these individuals because of their official status. A record is also maintained of individuals who threaten or attempt to redress a real or imaginary grievance against employees or officials of Federal, State or local governments by other than legal means. Subversives, ultra-rightists, racists and Fascists who display strong or violent anti-U. S. sentiments, emotional instability, or acts of conduct indicating a propensity for violence towards the Government are likewise included. u

FBI responsibility under this agreement was reiterated to all Special Agent personnel in view of the importance of promptly furnishing the U. S. Secret Service with any information which might have a potential bearing on the security of the President of the United States. u

CONFERENCE OF WAR RESISTERS INTERNATIONAL (WRI)
HAVERFORD COLLEGE
HAVERFORD, PENNSYLVANIA
AUGUST 25 - 31, 1969

One of the documents stolen from the FBI at Media, Pennsylvania, on the night of March 8, 1971, was an intra-office memorandum dated August 1, 1969, captioned as above. This document reveals an investigative interest in a pacifist-type organization and alludes to confidential informants. It could be distorted by individuals antagonistic to the United States position in Vietnam in an effort to discredit the Government and curtail or expose identities of sensitive sources. U

The WRI, founded in Europe in 1921, has the objective of uniting and supporting war resisters throughout the world. Pacifistic in character, the WRI and its United States affiliate, the War Resisters League, over the years, have been targeted for infiltration by communist and other hostile elements who endeavor to maneuver their idealistic membership for foreign-inspired intelligence and political purposes. It is in the national defense interest that any efforts to manipulate the WRI be identified. E

Although the stolen document instructs events connected with the WRI Conference be determined, with particular reference to the international situation and the Paris peace talks, investigative discretion is urged, and no request is made to penetrate or deter the activities of the organization. An individual or organization seeking to discredit the United State could readily twist the intent of the document to imply a concerted effort on the part of the Government to coerce or deter activities of an international antiwar group, implying the investigative scope of the FBI encompasses legitimate dissent. The document lists the symbol numbers of 20 confidential informants and the last names of two confidential sources together with the assigned Special Agent handlers. Nefarious elements could very well use this data as a means looking to identify or curtail the efforts of sensitive sources furnishing intelligence on a variety of Marxist-Leninist and basic revolutionary groups. This could adversely affect the national defense interest and present a threat to the personal security of the patriotic individuals involved. U

NEW LEFT NOTES - PHILADELPHIA

One of the documents taken in the recent robbery of FBI Office at Media, Pennsylvania, was an informal intra-office memorandum. The document was intended to be circulated among Agents handling security investigations to bring matters of topical interest to their attention in connection with their particular area of work. u

The document describes internal procedures of FBI in handling certain facets of investigations. For example, it sets forth certain administrative data for payments made to informants and stresses the need for more interviews of subjects and others involved in subversive activities. u

This document deals with investigations of individuals involved in New Left activities, many of whom are engaged in terrorist and extremist acts such as Weatherman, including violations of Federal statutes. Many members of the Weatherman underground are in fact Federal fugitives at this time. The memorandum which stresses the need for aggressive interviews is based on the fact that this criminal activity justifies overt, aggressive interviews to develop information to locate fugitives and to obtain evidence where violations of Federal statutes are involved. u

The document referred to above is an informal routing slip from Special Agent [redacted] dated 9/16/70 and captioned "New Left Notes - Philadelphia." u

ORGANIZED CRIME AND CRIMINAL INTELLIGENCE MATTERS

The fifteen serials relating to criminal intelligence and organized crime matters dealt with eight gambling investigations and one anti-racketeering matter. The sensitive information set forth in the fifteen serials consisted of the following: *u*

- (1) A list of forty names and addresses of gamblers in Delaware County, Pennsylvania, which was furnished to the Delaware County, Pennsylvania, District Attorney.
- (2) Reference to criminal informants by symbol number only, and
- (3) Results of record checks with the Bell Telephone Company of Pennsylvania.

The dissemination of the names and addresses of forty gamblers in Delaware County, Pennsylvania, was furnished to the District Attorney at his request. The District Attorney was advised that these individuals have been and would continue to be of interest to the FBI but that any action taken by his office would not interfere with our investigative interests. The contacting of criminal informants and the review of telephone company records are both normal and routine investigative steps in conducting gambling investigations which are being conducted in an effort to curb organized crime. *u*

CRIMINAL INFORMANT MATTERS
THEFT OF BUREAU MATERIAL FROM MEDIA, PA, RESIDENT AGENCY

Three serials relating to Philadelphia file [redacted] concerning criminal informant [redacted] were taken, but the identity of the informant was protected in each instance with his symbol number. These memoranda relate to the opening of the informant, his being reassigned to a second Agent, and the fact that he furnished information of value concerning a bank robbery case. U

Also involved in this theft were six other serials, all relating to five individuals that had been placed under development by the Media Resident Agency as potential criminal informants. The names of these potential informants were set out in the memoranda. The potential informants have been identified as: U

- 1)
- 2)
- 3)
- 4)
- 5)

Concerning the two potential criminal informants [redacted] mentioned above, it should be noted that their names are set forth on individual serials with the letters "PCI" underneath their names, but no other information indicating them to be potential informants.

The development and obtaining of these individuals as criminal informants is the very lifeblood through which the more important criminal cases are solved. Through these individuals many criminal violations are brought to the Bureau's attention that would not otherwise be known. In maintaining a pool of such individuals, the FBI is able to keep abreast of criminal activities throughout the nation. U

The disclosure of the identities of informants will not only jeopardize this program, but may very conceivably jeopardize the lives of the individuals who are furnishing information.

SELECTIVE SERVICE MATTERS

In connection with the burglary of the Media Resident Agency, Media, Pennsylvania, material relating to the Selective Service classification was reviewed. In reviewing the material reported as missing, 188 communications were reviewed. U

The Federal Bureau of Investigation has the primary responsibility for investigations concerning criminal violations under the Selective Service Act. Investigations are conducted to determine whether a willful violation of the Selective Service law had occurred in order that a presentation could be made to the United States Attorney relative to obtaining a prosecutive opinion. U

In the report of SA [redacted] dated 2/17/71 at Memphis, the identity of the source in [redacted] is disclosed on the cover page of this report. The source is identified as [redacted]. This report is captioned, [redacted] - Fugitive, SSN [redacted] SSA." U

Investigation was being conducted in this matter to locate and effect the arrest of a Bureau fugitive. Since investigation had determined that the fugitive had previously been in telephone contact with his parents, this investigative technique was considered a logical step to utilize in an effort to develop information as to the possible whereabouts of this fugitive. The toll call check was made for the telephone number subscribed to by the fugitive's parents and the information received therefrom was to be utilized for investigative leads on a selective basis. A number of the documents stolen contain information relating to the NBEDC and individuals affiliated with that organization. u

The NBEDC was organized in Detroit, Michigan, in April, 1969. [REDACTED]

at the founding convention of NBEDC, set forth a "Black Manifesto" demanding that white Christian churches and Jewish synagogues pay three billion dollars to blacks as reparation for 400 years of ancestral slave labor. u

Branches of this organization were established in various cities throughout the United States including Philadelphia, Pennsylvania. The NBEDC in Philadelphia was headed by Muhammed Kenyatta, a black extremist who has been arrested in the past by Philadelphia police as a result of illegal activities in connection with NBEDC demonstrations. u

The NBEDC has engaged in disruptive tactics against churches in many areas including Philadelphia. u

This organization, with its potential for violence, demonstrated by demands, threats and disruptive tactics, is currently under investigation by the Federal Bureau of Investigation. u

A review of the contents of the stolen documents pertaining to this organization could possibly result in disclosure of the identity of two of our informants which could place these informants in serious physical jeopardy if retaliatory measures were directed against them. BLACK PANTHER PARTY (BPP)

The BPP is a black extremist organization with a history of violence including numerous attacks on law enforcement officials. It advocates the revolutionary overthrow of the Government and urban guerrilla warfare. It is headquartered in Oakland, California, and has some forty branches throughout the country plus operations abroad. u

One of the stolen documents is a memorandum containing a brief summary of 18 conversations intercepted by a telephone surveillance on the BPP at 3625 Wallace Street, Philadelphia, Pennsylvania. It identifies parties to conversations and telephone numbers called. u

This telephone surveillance was initially authorized by the Attorney General on August 15, 1970, and was discontinued on February 10, 1971. u

Although the stolen document does not specify the information was received as a result of a telephone surveillance, this fact would be apparent from the content of the document. u

The conversations reported deal generally with the activities of the BPP in Philadelphia and persons affiliated with that group. It is of interest that in one conversation an individual mentioned that the "pigs" (police) were starting to get "uptight" and the other individual responded this was good and they would have to keep the pressure on the "pigs." u

The disclosure of this telephone surveillance could seriously impair the effectiveness of telephone surveillances in operation elsewhere as it will alert individuals involved in extremist activities to our utilization of that investigative technique. They will undoubtedly exercise considerably more caution in their conversations which will reduce the effectiveness of our telephone surveillances. Its disclosure will also be capitalized upon by those elements opposed to the use of telephone surveillances, particularly where domestic, radical and extremist groups are involved. u

UNITED KLANS OF AMERICA, INC.,
KNIGHTS OF THE KU KLUX KLAN (UKA)

Six documents taken relate to FBI investigation of the UKA (the largest and dominant Klan organization in the United States, headed by Imperial Wizard Robert M. Shelton) and FBI informants used against the UKA. ✓

The FBI has been charged with investigating known violations of Federal civil rights statutes, some of which were enacted as far back as the years immediately following the Civil War. Experience has proven that in areas where terror, threats, and violence are used to deprive minority groups of constitutional rights, Klan and white hate-type organizations are usually in the forefront and their members are usually responsible for threats, intimidation, and violent acts. In order that we will be able to carry out our responsibilities, it is necessary for us to have a vast knowledge of these groups, as well as activities of their members. For these reasons we utilize informants within the groups to augment our other investigative techniques. ✓

Two documents relate to two extremely valuable informants, one of whom is [REDACTED] b7D

[REDACTED] The identities of these informants would undoubtedly be compromised if the material falls into the hands of the Klan. ✓

The third, fourth, and fifth documents identify another individual who was under development as an informant by name and complete background. This individual is thereby compromised. ✓

The sixth document identifies by name an individual who was being investigated as the subject of a Klan investigation. The only apparent damage here appears to be in identifying the subject of an FBI investigation. ✓

In view of the importance of these matters and the potential compromise of not only the Klan informants but also the Klan subject involved, and the fact that their lives and well-being are endangered, serious consequences could be suffered by them, and FBI investigation of the Klan neutralized if these documents come into the possession of the Klan or are made public. ✓

SWARTHMORE AFRO-AMERICAN STUDENTS SOCIETY
also known as
SWARTHMORE AFRO STUDENTS SOCIETY
SWARTHMORE COLLEGE
SWARTHMORE, PENNSYLVANIA

A number of the stolen documents pertained to an investigation of the seizing of a campus building at Swarthmore by members of this group in January, 1969, and to a discreet preliminary inquiry of the group in February, 1971. One document is a memorandum prepared only for the Philadelphia file. This memorandum identifies two established sources at Swarthmore, [redacted]

[redacted] Another stolen document contained a list of 34 black students at Swarthmore in May, 1969. It was identified as having been furnished by a partially illegible name appearing to be [redacted]

[redacted] is also an established source. U

This group in 1968 began making some non-negotiable demands to the college about admitting black students. The demands led to threats and then the seizure of the admissions office by the group. The occupation lasted from January 9, 1969, to January 16, 1969, when the group left the office after the president of Swarthmore died of a heart attack. U

One of the leading activists in the group was [redacted] the communist revolutionary presently under indictment in California in connection with the murder of a judge in an escape attempt. At the time, [redacted] was described in the press as a senior at Swarthmore who intended to foment revolutions after she graduated. The police also reported that [redacted] the boyfriend of [redacted] and not a student at Swarthmore, was involved in occupation of the building. [redacted] who has since married [redacted] and who, with her, is active in attempts to free [redacted] was free on bond in January, 1969, following his conviction in September, 1968, for possession of bombs and explosives and carrying a concealed weapon. He was arrested in Lancaster, Pennsylvania,

in possession of a fire bomb and a loaded revolver. About 25 minutes after his arrest, unknown individuals threw fire bombs through the windows of Selective Service Headquarters in Lancaster. Another outsider who, with [redacted] addressed the Swarthmore students sympathetic to the occupation was [redacted] from Philadelphia who characteristically moved into any situation involving blacks to lend them vocal support. U

The occupation of the building, the presence of outside extremist agitators and involvement of [redacted] justified the investigation of the building occupation by this group. That investigation was closed in July, 1969, because there was no extremist activity in the group at that time. The group was the subject of a discreet preliminary inquiry in February, 1971, to determine if there were extremist elements at that time. This inquiry indicated no extremist activity. U

The disclosure of the stolen documents regarding this group could well result in undue harassment of the three established sources identified. Considering the type of people involved, these sources could be subjected to physical harm as a result of their cooperation. Even death is a possibility, considering the murder by the extremist Black Panthers of Alex Rackley whom they suspected of being a police informant. The involvement of [redacted] in furnishing the guns in the California murder of the judge and their support of her indicates that extremists like [redacted] are capable of fatal violence. U

The stolen documents mentioned above are: U

1. Report of Swarthmore Police Department, Swarthmore, Pennsylvania, dated January 27, 1969, captioned "INITIAL REPORT RE: STUDENT PROTEST AT SWARTHMORE COLLEGE."

2. List of thirty-four names identified as "List of Current Black Students at Swarthmore College from Marjorie 5/1/69."

3. Memorandum from Special Agent Thomas F. Lewis to Special Agent in Charge, Philadelphia, dated February 25, 1971, captioned "Swarthmore Afro Students Society (SASS), Swarthmore College, Swarthmore, Pennsylvania."

JEWISH DEFENSE LEAGUE

Among the documents burglarized from the Media, Pennsylvania, Resident Agency of the Federal Bureau of Investigation on March 8, 1971, were four documents relating to aspects of the Bureau's investigation of the militant Jewish Defense League (JDL). U

One of these documents contained instructions from the Bureau to the Philadelphia Office instructing that office to identify known leaders or individuals who had been listed as active in demonstrations of the JDL in the Philadelphia area. Individual cases were to be opened on these individuals to obtain details of their background and activities adequate for evaluation as to need for early interview. Particular emphasis was called for in developing any information indicating the separate subjects planned participating in demonstrations which would pose a threat to the internal security. U

The history of the JDL prior to the issuance of these instructions to Philadelphia had clearly displayed its proclivity for terrorist methods to support the various causes underwritten by the JDL. Allegations had been received that the JDL had participated in bombings of various Soviet and/or Arab bloc diplomatic establishments and news media had revealed that some of the JDL adherents in the Philadelphia area had been known to possess weapons while attending JDL demonstrations. U

The Bureau's instructions could be construed by unfriendly elements of the news media and society as an indication of invasion of civil rights of the individual members of the JDL. Our investigations, however, were not directed purely at members of the JDL per se, but only against those individuals in leadership capacity or those who had by past action demonstrated their staunch support of JDL principles through public demonstration and public appearances. U

The three other documents involved in the theft revealed the identity of twelve individuals in the Philadelphia area as objects of Bureau investigative interest in view of their

active leadership of the Philadelphia chapter of the JDL or participation in demonstrations directed and carried out by the organization in the Philadelphia area. Also revealed were the identities of two Bureau sources of information, both of which were prominent in the activities of local recognized Jewish civic organizations. If these documents were surfaced, it is not impossible that the physical well being of these two sources could be placed in jeopardy if retaliation by the JDL was forthcoming. U

The documents referred to herein are as follows: U

1) Airtel from the Director, FBI, to Special Agent in Charge (SAC), Philadelphia, one copy for New York Office, dated October 20, 1970, captioned "Jewish Defense League (JDL), IS - Nationalistic Tendencies - JDL."

2) Philadelphia airtel to the Director dated October 27, 1970, captioned as number one above.

3) Memorandum of Special Agent Edward A. Smith to SAC, Philadelphia, dated October 12, 1970, captioned as number one above.

4) Investigative report dated February 12, 1971, at Philadelphia, captioned [REDACTED] IS - Nationalistic Tendencies - JDL."

By [REDACTED] Time 10:55 PM

CC-MR. ROSEN

CC: Mr. Conrad

On the night of March 8, 1971, the Citizens' Commission to Investigate the FBI removed files from an east coast office of the FBI. These files will now be studied to determine: u

- the nature and extent of surveillance and intimidation carried on by this office of the FBI, particularly against groups and individuals working for a more just, humane and peaceful society;
- how much of the FBI's efforts are spent on relatively minor crimes by the poor and powerless against whom they can get a more glamorous conviction rate, instead of investigating truly serious crimes by those with money and influence which cause great damage to the lives of many people; crimes such as war profiteering, monopolistic practices, institutional racism, organized crime, and the mass distribution of lethal drugs;
- the extent of illegal practices by the FBI, such as eavesdropping, entrapment, and the use of provocateurs and informers.

As this study proceeds, the results obtained along with the FBI documents pertaining to them will be sent to people in public life who have demonstrated the integrity, courage and commitment to democratic values which are necessary to effectively challenge the repressive policies of the FBI. u

As long as the United States government wages war against Indochina in defiance of the vast majority who want all troops and weapons withdrawn this year, and extends that war and suffering under the guise of reducing it, as long as great economic and political power remains concentrated in the hands of small cliques not subject to democratic scrutiny and control, then repression, intimidation, and entrapment are to be expected. We do not believe that this destruction of democratic society results simply from the evilness, egotism or senility of some leaders. Rather, this destruction is the result of certain undemocratic social, economic and political institutions. u

We have carried out this action in a way which does not physically threaten anyone. We intend no personal harassment of the people who work in the office from which the files were taken. Indeed, we invite them and others to join with us in building a peaceful, just, and open society; one which does not wage nor threaten war, which distributes human and material resources fairly, and which operates on the basis of justice rather than fear. u

We have taken this action because: u

- we believe that a law and order which depends on intimidation and repression to secure obedience can have but one name, and that name is tyranny;
- we believe that democracy can survive only in an order of justice, of an open society and public trust;
- we believe that citizens have the right to scrutinize and control their own government and its agencies;
- and because we believe that the FBI has betrayed its democratic trust and we wish to present evidence for this claim to the open and public judgement of our fellow citizens.

In doing this, we know full well the legal jeopardy in which we place ourselves. Following the burglary of the Media, Pennsylvania, Resident Agency, our Philadelphia Office initiated immediate efforts to reconstruct from files on hand a compilation of the material which was taken by the unknown subjects. U

A review of those missing serials identified thus far insofar as work handled by the General Investigative Division is concerned, would indicate the majority to be investigative reports, airtels, teletypes, and intra-office memoranda. Information contained in the missing serials sets forth results of investigation into matters such as Bank Robbery, Theft from Interstate Shipment (TFIS), Theft of Government Property (TGP), car thefts cases, etc. Except in the following instances, divulging this material would not have an adverse bearing upon Bureau operations. U

1. In three unknown subject bank robbery cases, the identities of suspects are shown. U

2. In one TGP and two TFIS reports the identity by name of sources of criminal information is set forth on administrative pages. U

3. Identity of convicted felon who indicated cooperation in a bank robbery investigation is exposed. U

On 3/11/71, Philadelphia Office furnished copies of over 80 documents related to work in Domestic Intelligence Division believed compromised in the burglary of the Media Resident Agency. These documents are being subjected to individual penetrative scrutiny to arrive at a damage assessment. A preliminary assessment of the damage caused by the compromise of these documents falls generally into 3 main areas:

(1) Identification of Sources. The identity of [redacted] who has cooperated with us and several confidential sources at Swarthmore College have been disclosed. Additionally, other sources and informants, although not identified by name, have been identified as to geographic location and as being members in organizations which we are investigating. One document contained specific reference to [redacted] Referral/Consult

Another document contained the identity of a source furnishing information about Jewish Defense League and yet another identifies [redacted] who has furnished information about a Black Panther Party member.

(2) Bureau Techniques and Programs. Bureau policy relative to a highly confidential program to recruit sources who can be directed against hostile intelligence personnel in the U. S. was set out in one document. Availability to the Bureau of telephone toll call checks, Selective Service record checks, checks of military service records and other investigative techniques have also been exposed. One document contains information regarding the Bureau's extensive investigative interest in members of the Black Student Union, a black organization found on many college campuses.

(3) Investigations of Specific Individuals. The majority of compromised documents relate to investigations of individuals. One involves [redacted] with the Director's approval, has previously been alerted to our investigative interest in [redacted]

OBSERVATION:

There is a potential of considerable embarrassment to the Bureau if these documents should be made available to the left-wing press or other individuals who could take them out of context and use them to attack the Bureau. Each of the documents is being minutely scrutinized not only on its immediate contents but on a long-range basis including its relationship with our overall investigative programs and goals. An overall damage assessment report is being prepared and will be furnished to the Director promptly. U

Field offices covering communist bloc establishments have been instructed to alert their personnel and sources in the event some of the stolen documents are passed to hostile intelligence services. (S) (C) U

ACTION:

If approved, sources and informants whose identities have been exposed will be alerted for their own protection. Each will be requested to be alert for any contact which may assist us in solving this case and will be requested to notify the Bureau immediately if such contact is established. U

OK. RLC/son

A penetrative in-depth analysis to determine what effect this compromise will have on our security investigations is being undertaken most expeditiously. You will promptly be advised of the findings of this analysis and additional recommendations based thereon will be furnished. U
